

FIRST CONGO DISASTER PLAN

In the event of a severe earthquake or other community disaster occurring during school time, there may be no means of communication available and families may be separated for a period of time. Parents who are here with children will be responsible for their own children and for deciding whether to remain at the First Congregational Church Nursery School or to return home. The staff will remain at school to care for any children who are here on a day when a parent is not also at the site. Your child would remain at school until you are available, or until a person designated by you would take over responsibility for your child.

In the event that you cannot come to school to personally take responsibility for your child we would like to know who you want to take your place. It may be a car-pool parent, a friend, a neighbor, a relative. This person **MUST** know ahead of time and **AGREE** to accept such responsibility. The person designated as the emergency contact on our standard emergency forms does not always realize that his/her name has been used.
